Recipe:
Dinosaur-shaped cookies

Ingridients:
300 g of white flour
2 x eggs
10 g of tartaric baking powder
16 g of vanilla sugar
80 g of powdered sugar
150 g of butter

Difficulty:

General description and procedure:

- Mix the flour and baking powder.
- Then add the eggs, sugar, vanilla sugar and butter warmed to room temperature and knead into a dough.
- Wrap the dough in foil and let it rest in the refrigerator for a few hours.
- Roll out the cooled dough on a floured board and shape the dough into dinosaurs with molds.
- Place the dinosaurs on a baking sheet covered with baking paper.
- Bake the cookies at 180 °C for about 8 minutes.
- Mass is approximately for 3 cookie pans.
