Recipe:

Fried squid (calamari)

Ingredients:

820 g squid
1 x all-purpose flour
1 x oil
1 x salt
1 x lemon

Difficulty:

General description and procedure:

- Start by cleaning the squid and slicing them into approximately 1 cm thick rings. Once done with slicing, dry them well thoroughly with paper towels.
- Pour all-purpose flour into a deep plate and coat the pre-sliced rings and tentacles in it.
- Place the tentacles and rings in a sieve to remove excess flour.
- Heat oil to about 175°C. Once the oil is hot, add the squid to the oil and fry them for about 3 minutes. The frying time depends on the thickness of the rings and the size of the squid.
- Once fried, drain the calamari and place them on a plate. Optionally, add salt and lemon juice to the calamari according to taste. They can be served with a side dish and sauce of your choice.
